

Meet Micron at SC22

Visit us at Booth 2025

Kay Bailey Hutchison Convention Center, Dallas TX

November 14-18

Learn about

Micron DDR5: High performance memory for HPC workloads

Micron CXL: Expanding memory capacity and bandwidth for HPC

Micron SSD: Accelerating workloads with NVMe Storage

Where to find us

Lenovo Booth 1204

Speaker on 11/16 at 11:15

Learn how Micron and Lenovo are using DDR5 and NVMe SSDs for some of the worlds most advanced HPC deployments.

Weka Booth 3223

Speaker on 11/15 at 1:00

Speaker on 11/16 at 3:00

Micron is supporting Weka to enable Distributed Storage Solutions with DDR5 and NVMe SSDs. Hear about recent performance testing and results.

Supermicro Booth 1828

Meet anytime

Discover how Supermicro and Micron collaborate to deliver storage solutions to support HPC workloads.

AMD Booth 2417

Meet anytime

Micron has announced the availability of DDR5 on the latest 4th generation EPYC processors. Learn more about these systems.

Xconn at CXL Consortium Booth 2038

Meet anytime

Collaboration on CXL Switch Silicon Enabling Composable Data Center Infrastructure.

Authenta at Micron Booth 2025

Meet on 11/16 at 2:00

Learn how you can simplify Silicon to Cloud Security with Microns Authenta Cloud Platform.
